

Residual Income Comparison Presented by Dick Cooke - Avanti Marking LLC

Many people asked for this comparison. I hope it helps all of you build your businesses.

RESIDUAL INCOME

Financial Advisors use the 10 Year U.S. Treasury Bond as a benchmark to analyze how much money you would need to invest to receive a certain amount of income.

As an example: to create an ongoing residual income of \$100,000. per year, you would need to invest \$2,500,000 in a 10 year U.S.Treasury Security, presently paying 4%.

The following schedule highlights the equivalent amount of money you would need to invest to create a similar income stream

Income Amount needed to create similar income (Remember this is after tax dollars)	Comparable Asset Value	
\$300. Per month = \$3,600.	Per year	\$90,000.00
\$600. Per month = \$7,200.	Per year	\$180,000.00
\$900. Per month = \$10,800.	Per year	\$270,000.00
\$1500. Per month = \$18,000.	Per year	\$450,000.00
\$2100. Per month = \$25,200.	Per year	\$630,000.00
\$2100. Per week = \$109,000.	Per year	\$2,730,000.00
\$3600. Per week = \$187,200.	Per year	\$4,680,000.00

I don't believe there is a better opportunity for wealth creation available today!
